---

**Scientific statement**

I have a broad research experience in the nervous system, cell signaling, molecular biology, genetics, biological rhythms, sleep behavior, anxiety-like and social behavior, and model organisms such as the rat, mice, and the fruit fly *Drosophila melanogaster*. My scientific contributions have been centered on understanding how the circadian clock imposes daily rhythmicity on behavior. Recently, I have become interested in researching the impact on the nervous system function of gene mutations associated with autism spectrum disorder. Most of my investigation uses *Drosophila* as a model organism in biomedical research thanks to its powerful genetic tools and a battery of sophisticated behavioral tests. Currently, I am exploring the impact on the behavior, development, and aging of mutations that in humans are associated with psychiatric and mental disorders.

**Education**

Ph.D., Sciences mention Neurosciences, Faculty of Sciences, Universidad de Valparaíso, 2015  
Valparaíso, Chile

Thesis Title: Role of Calcium and cAMP Signaling in the Prothoracic Gland in the Circadian Timing of *Drosophila* Emergence. Advisor: John Ewer, PhD.

Degree Biochemistry, Pontificia Universidad Católica de Valparaíso, Valparaíso, Chile 2007

**Postdoctoral Training**

Fellowship, Centro Interdisciplinario de Neurociencia de Valparaíso, Valparaíso, Chile 2019

Postdoctoral Fellow/Scholar 2016–2018  
Supervisor: Francisco Aboitiz, PhD.  
Departamento de Psiquiatría, Laboratorio de Neurociencias, Faculty of medicine,  
Pontificia Universidad Católica de Chile, Santiago, Chile

**Academic Appointments**

Assistant Professor 2020–present  
Faculty of Dentistry, Universidad de Valparaíso, Valparaíso, Chile

## Other Positions and Employment

Investigator at Centro Interdisciplinario de Neurociencia de Valparaíso, Valparaíso, Chile	2020–present
Instructor in biology and biochemistry, Departamento de Odontología, Faculty of dentistry, Universidad de Valparaíso, Valparaíso, Chile	2019
Instructor for core in Science course, Departamento de Artes Liberales, Universidad Adolfo Ibáñez, Viña del mar, Chile	2019
Instructor for Genetics course, Departamento de Artes Liberales, Universidad Adolfo Ibáñez, Viña del mar, Chile	2019
Managment of Ciencia Altiro Science Outreach Program. Centro Interdisciplinario de Neurociencia de Valparaíso, Facultad de Ciencias, Universidad de Valparaíso, Valparaíso, Chile. Director: Kathleen Whitlock, PhD.	2015
Instructor for Science course, Departamento de Artes Liberales, Universidad Adolfo Ibáñez, Viña del mar, Chile	2014-2015
Research Assistant, Eco Vision's Lab, Centro Interdisciplinario de Neurociencia de Valparaíso, Faculty of sciences, Universidad de Valparaíso, Valparaíso, Chile. Principal Investigator: Adrián Palacios, PhD.	2007-2009

## Teaching

### *Graduate programs*

- Faculty of medicine, Universidad de Valparaíso, Ph.D. Program in Health Sciences and Engineering (invited)
- Faculty of sciences, Universidad de Valparaíso, Master's program in Biological Sciences Neuroscience mention (Member of Academic Committee)
- Faculty of dentistry, Universidad de Valparaíso, Master's program in Dental Sciences, Molecular Biology (lecturer)
- Faculty of dentistry, Universidad de Valparaíso, Orthodontics Specialty Program, Research Methodology (lecturer)

### *Undergraduate programs*

- Faculty of dentistry, Universidad de Valparaíso, Science Course I and II (lecturer and coordinator)
- Faculty of dentistry, Universidad de Valparaíso, Normal and pathological metabolism I and II (lecturer)
- Faculty of dentistry, Universidad de Valparaíso, Systematization and Scientific Communication (lecturer)

- Faculty of chemical sciences and pharmacy, Universidad de Valparaíso, Bibliographic seminars Course (lecturer)

### ***Current and past Mentoring***

#### *Master's thesis*

- Carla Loezar (Faculty of Sciences, Universidad de Valparaíso, joined 2022)

#### *Undergraduate students*

- Gabriel Zamorano (Faculty of chemical sciences and pharmacy, Universidad de Valparaíso, scheduled to graduate 2023)
- Consuelo Gallardo (Faculty of dentistry, Universidad de Valparaíso, scheduled to graduate 2023)
- Fernanda Parada (Faculty of dentistry, Universidad de Valparaíso, scheduled to graduate 2023)
- Zayra Valdebenito (Faculty of dentistry, Universidad de Valparaíso, scheduled to graduate 2023)
- Sebastián Guerra (Faculty of dentistry, Universidad de Valparaíso, graduated 2022)
- Alejandra Montoya (Faculty of dentistry, Universidad de Valparaíso, graduated 2022)
- Nicolas Salazar (Faculty of dentistry, Universidad de Valparaíso, graduated 2022)
- Javiera Ruiz (Faculty of dentistry, Universidad de Valparaíso, graduated 2022)
- Priscilla Saavedra (Faculty of dentistry, Universidad de Valparaíso, graduated 2022)

### **Other Experience and Professional Memberships**

Member of Academic Committee Master's degree in Biological Sciences Mention Neuroscience, Faculty of Sciences, Universidad de Valparaíso, Chile	2023-present
Member of the Academic Council of Journal in digital format of the University of Valparaíso, Universidad de Valparaíso, Chile	2023-present
President of Ethics and Good Practices Committee of the Centro Interdisciplinario de Neurociencia de Valparaíso, Valparaíso, Chile	2022-present
Active member of the Thesis Committee of the Faculty of dentistry, Universidad de Valparaíso, Valparaíso, Chile	2020-present
Member, Society for Research on Biological Rhythms (SRBR)	2016-present

Scientific consultant and collaborator of the Nodo CIV-VAL, for the identification of gaps and challenges of the CTCi ecosystem of the Central Macrozone 2020-2021

Member of Awards Committee: Trainee and Travel Awards of the Society for Research on Biological Rhythms (SRBR) 2019-2020

### Editorial Work

Frontiers in Physiology section Chronobiology (Review Editor, Editorial Board) 2020-present  
<https://loop.frontiersin.org/people/649730/overview>

### Invited Courses

- EMBO Global Lecture Course “Small brains, big Ideas”, from 20-28 October 2022 in Las Cruces, Chile. Courtship Behavior, Practical Course. Faculty. The Biannual “Small Brains, Big Ideas” Course first took place in Santiago, Chile, October 2010 and has been offered every 2 years ever since. So far it has successfully trained over 100 Latin-American students in recent advances and modern techniques in neurosciences, primarily focusing on the use of *Drosophila melanogaster* and *Caenorhabditis elegans*, Monarch butterflies, and bees, for biomedical research. <https://smallbrains.org/web/about-us/faculty/>

### Research support

#### Ongoing

- 2019-2023 FONDECYT INICIACIÓN #11190601 (Principal Investigator) **Project ranked number one in the study section (Medicina G1)**

#### Past

- 2022 Proyecto Apoyo a los Centros de Excelencia, código ACE210014, Financiado ICM-ANID, CINV. Proyecto puente: El citoesqueleto de actina: potencial diana terapéutica en sinaptopatía centrales y periféricas (Principal Investigator)
- 2022 Proyecto Apoyo a los Centros de Excelencia, código ACE210014, Financiado ICM-ANID, CINV. Proyecto puente: Genetic analysis of mesencephalic astrocyte-derived neurotrophic factor (MANF) function in *Zebrafish* and *Drosophila* (Principal Investigator)
- 2015-2018 FONDECYT Postdoctoral #3160177 (Principal Investigator)
- 2016-2021 Centro Interdisciplinario de Neurociencia de Valparaíso (CINV) Millennium Institute grant. P09-022-F (Postdoctoral Research)
- 2015-2016 Office of Naval Research (ONR), US NAVY, USA. (Postdoctoral fellow)

## Research publications

Whitlock & Ciencia al Tiro. **Edited by:** Whitlock Kathleen, Ewer John, Benjumbeda Isabel, **Palacios Angelina**, Rojas Alberto. Andros impresores, registro #247.771. ISBN 978-956-358-304-5. Valparaíso, Chile, 2015.

## Awards and Fellowships

- Shortlisted for the 2021 Journal of Experimental Biology Outstanding Paper Prize with “The impact of the gut microbiome on memory and sleep in *Drosophila*” (doi: 10.1242/jeb.233619). <https://journals.biologists.com/jeb/article/225/2/jeb243996/274150/Announcing-the-2021-Journal-of-Experimental?searchresult=1>
- **Third place award** for the best annual summary oral presentation **INSAR** (International Society Autism Research) Regional Meeting Puerto Varas, Chile 2019.
- Selected by the Latin American Society Chronobiology (LASC) to represent Chile in the Young Scientist Opening Session “Today in Latin American Chronobiology” Call for Young Speakers, XV Latin American Symposium on Chronobiology, Uruguay 2019.
- Annual Award for Innovation in Scientific Education 2015, category Non-formal Scientific Education. Young Science Foundation with the sponsorship of the Santiago Office of the United Nations Educational, Scientific and Cultural Organization (UNESCO). November 2015.
- Competitive Trainee Travel Award to attend to SRBR 2014, Big Sky Montana, USA (Society for Research on Biological Rhythms) (2014).
- Competitive Travel funding to visit Big Sky, Montana, USA. (Office of Naval Research (ONR) Global, Science & Technology, US Navy) (2014).
- Competitive doctoral Fellowship "Apoyo Tesis Doctoral" CONICYT (Chilean Governmental Agency for Science and Technology) (2011-2012).
- Competitive Fellowship to attend to “53<sup>rd</sup> Annual *Drosophila* Research Conference”, Chicago, IL, USA. MECESUP (Fellowship of the University of Valparaíso) (March 7-12, 2012).
- Competitive Fellowship for Doctoral Studies in Chile CONICYT (2010-2013).
- Competitive Fellowship for Doctoral Studies in Chile MECESUP (2009-2010).

## Attendance to Scientific Meetings

- **Angelina Palacios-Muñoz**, Valeria Silva, Isaac E García, and John Ewer. (2023). Mutations in *trpγ*, the homologue of *TRPC6* autism candidate gene, causes autism-like behavioral deficits in *Drosophila*. Primer Encuentro Annual de Investigación Facultad de Farmacia, Universidad de Valparaíso, January 2023, Valparaíso, Chile.
- **Angelina Palacios-Muñoz**, Valeria Silva, Isaac E García, and John Ewer. (2022). Mutations in *TRPC6* are associated with autism in humans and cause autism-like behavioral deficits in *Drosophila*. 19<sup>th</sup> European *Drosophila* Neurobiology Conference NEUROFLY 2022, 6-10 September 2022, Saint-Malo, France.
- Valeria Silva, **Angelina Palacios-Muñoz**, Zeynep Okray, Karen L. Adair, Scott Waddell, Angela E. Douglas and John Ewer. Does the microbiome affect fruit fly behavior?. 29<sup>th</sup> Meeting of Hellenic Society for Neuroscience (Virtual), Greece, 2021.
- Granada MF, Gallardo C, Díaz J and **Angelina Palacios-Muñoz**. Patrones de comportamiento circadiano presentes em la microbiota salival humana. Congreso Nacional de Estudiantes de Odontología CONADEO (Virtual), Chile, 2021.

- **Angelina Palacios-Muñoz**, Valeria Silva, Danielle Moreira, Francisco Aboitiz, Maria Rita Passos-Bueno and John Ewer. *Drosophila* mutants of autism candidate gene TRPC6 exhibit impaired sleep homeostasis, disruptions in social behavior, and altered cognitive functions. XV Latin American Symposium on Chronobiology 2019 Colonia del Sacramento, Uruguay.
- **Angelina Palacios-Muñoz**, Isaac García, Francisco Aboitiz, Valeria Silva, Danielle Moreira, Maria Rita Passos-Bueno and John Ewer. *Drosophila* mutants of autism candidate gene TRPC6 exhibit impaired sleep homeostasis, disruptions in social behavior, and altered cognitive functions. International meeting of autism research (INSAR) 2019, Puerto Varas, Chile.
- **Angelina Palacios-Muñoz**, Danielle Moreira, Maria Rita Passos-Bueno and John Ewer. ### Courses and Seminars

- Diploma: "University Teacher's Certificate". Universidad de Valparaíso, Diplomado en Docencia Universitaria 2022, January 25, 2023.
- Course: "Ética, Transparencia y Lobby 2022". Centro de estudios de la administración del Estado (CEA), 8 horas cronológicas de formación, y es dictado por CEA perteneciente a la Contraloría General de la República, May 12.
- Course: "Inducción a la Docencia en Universidades del Estado de Chile". Consorcio de Universidades del Estado de Chile, 12 horas cronológicas de formación, y es dictado en el contexto del Convenio Marco Objetivo en Red. Santiago, September 08, 2020.
- Course: "Classic papers in Genetics". Facultad de Ciencias, Universidad de Valparaíso, April 01th to July 15th, 2020.
- Course: "Impacto del reloj biológico sobre la vida humana". Facultad de Ciencias, Universidad de Valparaíso, March 30th to June 15th, 2019.
- III Versión "Creando una cultura del autismo en Chile: Derecho, inclusión y participación". Hospital Naval, Viña del Mar, September 11-12th, 2017.
- II Versión "Creando una cultura del autismo en Chile". Escuela de Medicina, Universidad de Valparaíso, August 4-5th, 2016.
- Simposio "Neuroscience meets Valparaíso" November 28-29th, 2012. Parque Cultural Ex-Cárcel, Valparaíso.
- Simposio "40 Years of Ions Channels" A marriage of convenience, Octubre 25-27th, 2011; Centro Interdisciplinario de Neurociencias de Valparaíso.
- Course: "Desarrollo, Genética y Evolución", dictated by Dr. John Ewer, Centro Interdisciplinario de Neurociencias de Valparaíso, August 3th to December 15<sup>th</sup>, 2010.
- International Course: Small Brain, Big Ideas; Biomedical Insights from Invertebrate Neuroscience Research. Universidad de Chile, Santiago de Chile, October 25-30<sup>th</sup>, 2010.
- International Course: Advanced Insect Development Genetics and Genomics. Universidad de Chile, Santiago de Chile, December 2-12<sup>th</sup>, 2009.

### Outreach Activities and Appearances in the media

- Interview in Valentin Letelier radio (March 2023). Program "Café Negro". Talk about the role of women in science. <https://www.mixcloud.com/RadioValentinLetelier/entrevista-arlek-gonzález-angelina-palacios-20230308/>
- Active member of "Ciencia Altiro science outreach program" (2009-2022). University of Valparaíso, Chile. Director: Dr. Kathleen Whitlock.
- Talk on "Estudio del trastorno del espectro autista utilizando como modelo la mosca *Drosophila melanogaster*". December 3th, 2022. Jornada Científica SOCEOUV (Sociedad Científica de Estudiantes de Odontología de la Universidad de Valparaíso). <https://www.instagram.com/p/CIUrS6LJwku/?hl=es>.
